

## MAC Aviation Programme

The college, in conjunction with Wanaka Flight Training Limited and Wanaka Helicopters Limited, is pleased to offer an aviation course to senior students. Students have the opportunity to attain a Private Pilot Licence (PPL) in either fixed wing (aeroplane) or rotary wing (helicopter) at the same time as they are studying for their national academic qualifications.

The college's timetable structure will allow students to have normal classes and aviation theory during the course of the school day and on one afternoon per week the students will gain practical flying experience under the care of Wanaka Flight Training or Wanaka Helicopters Limited, based at Wanaka Airport. Other flying lessons will occur as required, either at the weekend or weekdays outside of school hours.

### Course Applications:

- The course is limited to students in Years 12 or 13, however you cannot fly solo until age 16 and cannot gain the PPL until age 17.
- Students must pass a Class 2 medical examination before being accepted onto the course.
- There are a limited number of places available in the course each year. Students must complete the attached application form and submit it to the college by **1<sup>st</sup> November**. Please ensure that you send all the required documents as outlined on the application form.
- You must have a place to live in Wanaka and be enrolled at Mount Aspiring College by the start of the college year before being accepted onto the course. If you need assistance in finding accommodation you may apply for inclusion on our homestay programme. Please contact the office and request a homestay application form.

### Course Restrictions

- If the flying instructor deems that a student is either unsafe or unsuitable for flying, then the student's place in the course will be terminated. In the event of this happening, any refund of fees already paid will be negotiated between the flight provider, the college and the student's caregivers.
- If the fees are not paid by the due dates, then the student's flying lessons will cease. They will recommence once the outstanding fees have been paid.

## Course Costs

Fee covers:	Payable to:	Amount
<b>Class 2 Medical Exam</b>	Aviation Medical Practitioner CAA Medical Application Fee	\$250.00* \$120.75
